Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 13, 21-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Prior Art (APA hereinafter, Figures 17-18) in view of Morii (US 6424394).

APA discloses all limitations except for first and second shading films formed between the outside edge portions of the first and second substrates to give peripheral shading.

Morii discloses a liquid crystal display device comprising first and second shading films formed between the outside edge portions of the first and second substrates to give a peripheral shading (see at least Figure 3), wherein the use of such shading films yields advantages such as free from defects due to the adhesive sealant, high aperture ratio, high in reliability (see col. 6, lines 45-67). Therefore, it would have been obvious to one of ordinary skill in the art to employ first and second shading films formed between the outside edge portions of the first and second substrates to give a peripheral shading for advantages such as free from defects due to the adhesive sealant, high aperture ratio, high in reliability

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Response to Arguments

5. Applicant's arguments with respect to newly added claims 13, 21-23 have been considered but are moot in view of the new ground(s) of rejection.
